Status of EPA Implementation of Government-wide DUNS/UEI Transition

EPA DUNS/UEI Transition

- [RAIN-2021-G01](#)
- Beginning April 2022 [DUNS numbers](#) will no longer be used as a UEI and only the SAM.gov created UEI will be accepted. Until that time, the DUNS number remains the official identifier for doing business with the U.S. Government and entities will continue to register in SAM.gov using their DUNS number.
- To support this transition, starting on May 17, 2021, Grants.gov will deploy [forms compatible with the new UEI number](#).

EPA DUNS/UEI Transition

- Until further notice, all EPA funding opportunities (competitive and non-competitive) will continue to use DUNS-compatible grant application packages and no change will be implemented at this time. Applicants will continue to use their DUNS number when completing forms in EPA grant application packages.
- The EPA application package, the contents of which is further described in [RAIN-2018-G07-2](#), includes two forms that require a DUNS: the [SF-424, Application for Federal Assistance](#) and [EPA Form 4700-4, Preaward Compliance Review Report for All Applicants and Recipients Requesting Federal Financial](#).
