

THE PRESIDENT'S MANAGEMENT AGENDA

Modernizing Government for the 21st Century

CAP Goal #8: Results-Oriented Accountability for Grants
Federal Demonstration Partnership Spring Meeting
May 11, 2018

Rhea Hubbard & Nicole Waldeck

Policy Analysts

OFFICE OF MANAGEMENT AND BUDGET

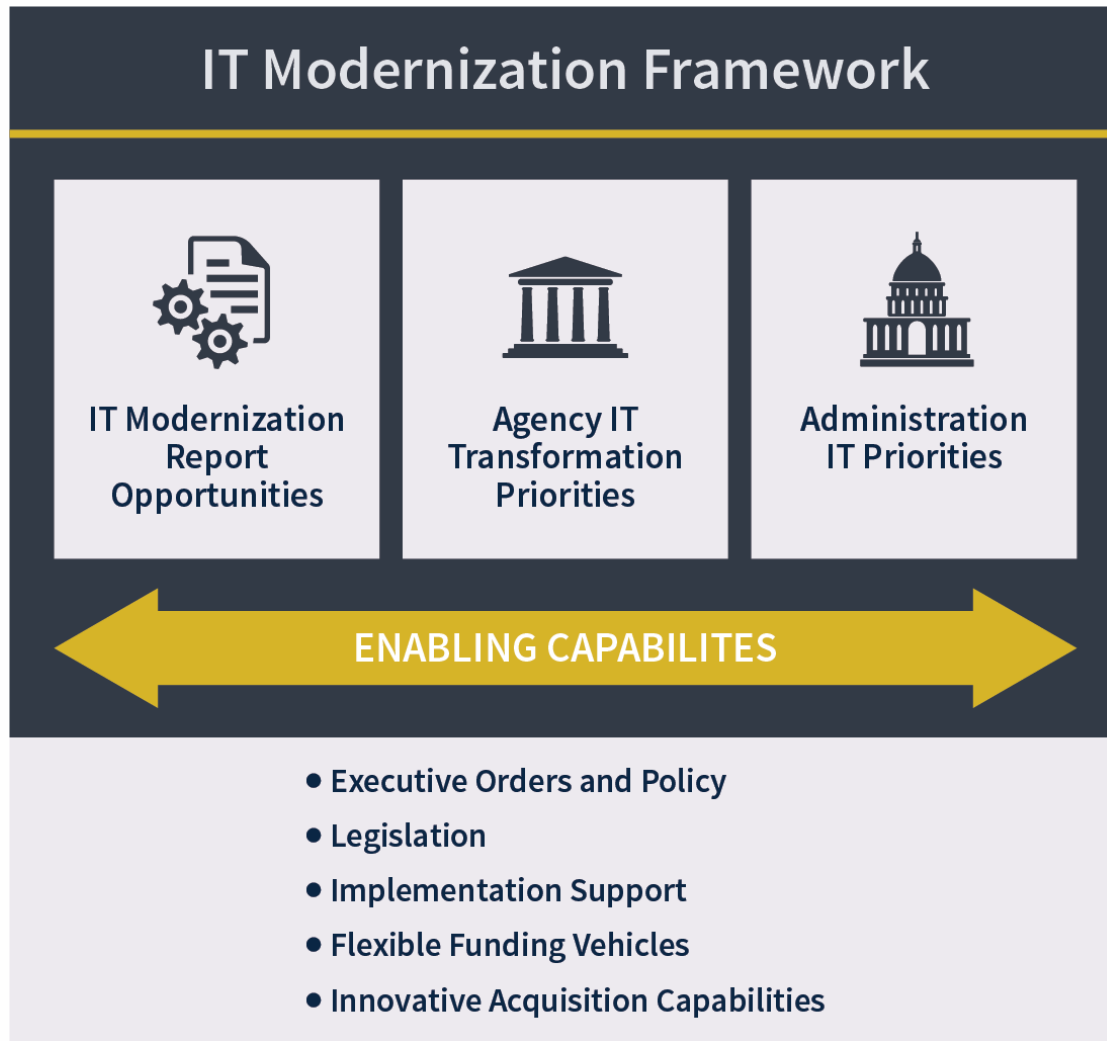

What Is Different?

Government modernization will be rooted in the intersection of transforming technology, data, process, and people rather than working in silos.

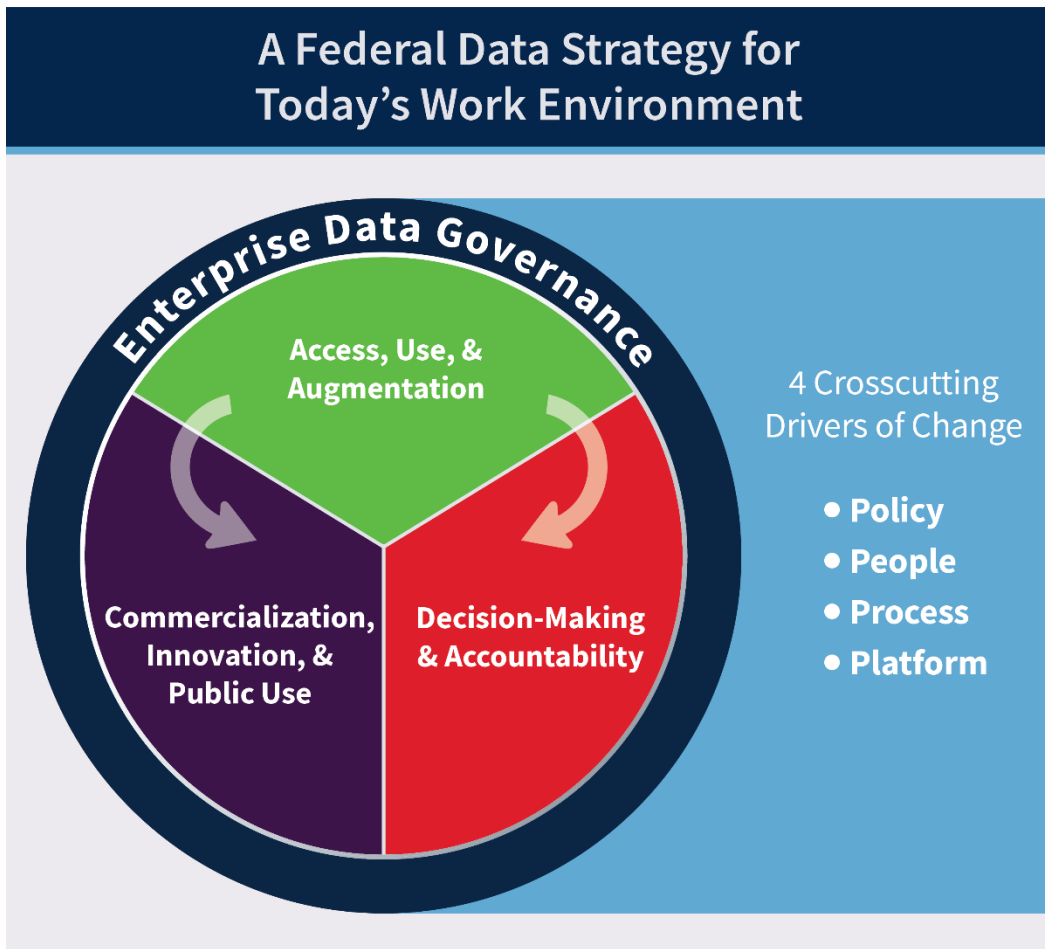

IT Modernization

Data, Accountability, and Transparency

Workforce of the Future

STRATEGIC WORKFORCE MANAGEMENT

Actively Manage the Workforce

Improve Employee
Performance Management
& Engagement

Develop Agile Operations

Reskill & Redeploy
Human Capital
Resources

Acquire Top Talent

Simple & Strategic
Hiring

CONTINUOUS LEARNING: INNOVATIONS, RESEARCH & PILOT PROJECTS

ENABLERS:

- Leverage data and analytics
- Utilize information technology and tools
- Align financial models/incentives
- Simplify legal and policy framework
(requires legislative and regulatory change)

Cross Agency Priority (CAP) Goals

IT Modernization

Data,
Accountability and
Transparency

People -
Workforce for the
21st Century

Improving
Customer
Experience

Sharing Quality
Services

Shifting From Low-
Value to High-
Value Work

Suitability, and
Credentialing
Reform

Lab-to-Market

Linkage to Other CAP Goals

The Evolution of Grants Management

Grants Challenges by Stakeholder Community

Oversight Community

- Weak internal controls
- Funds mismanagement
- Fraud
- Improper payments

Recipients and the Communities they Serve

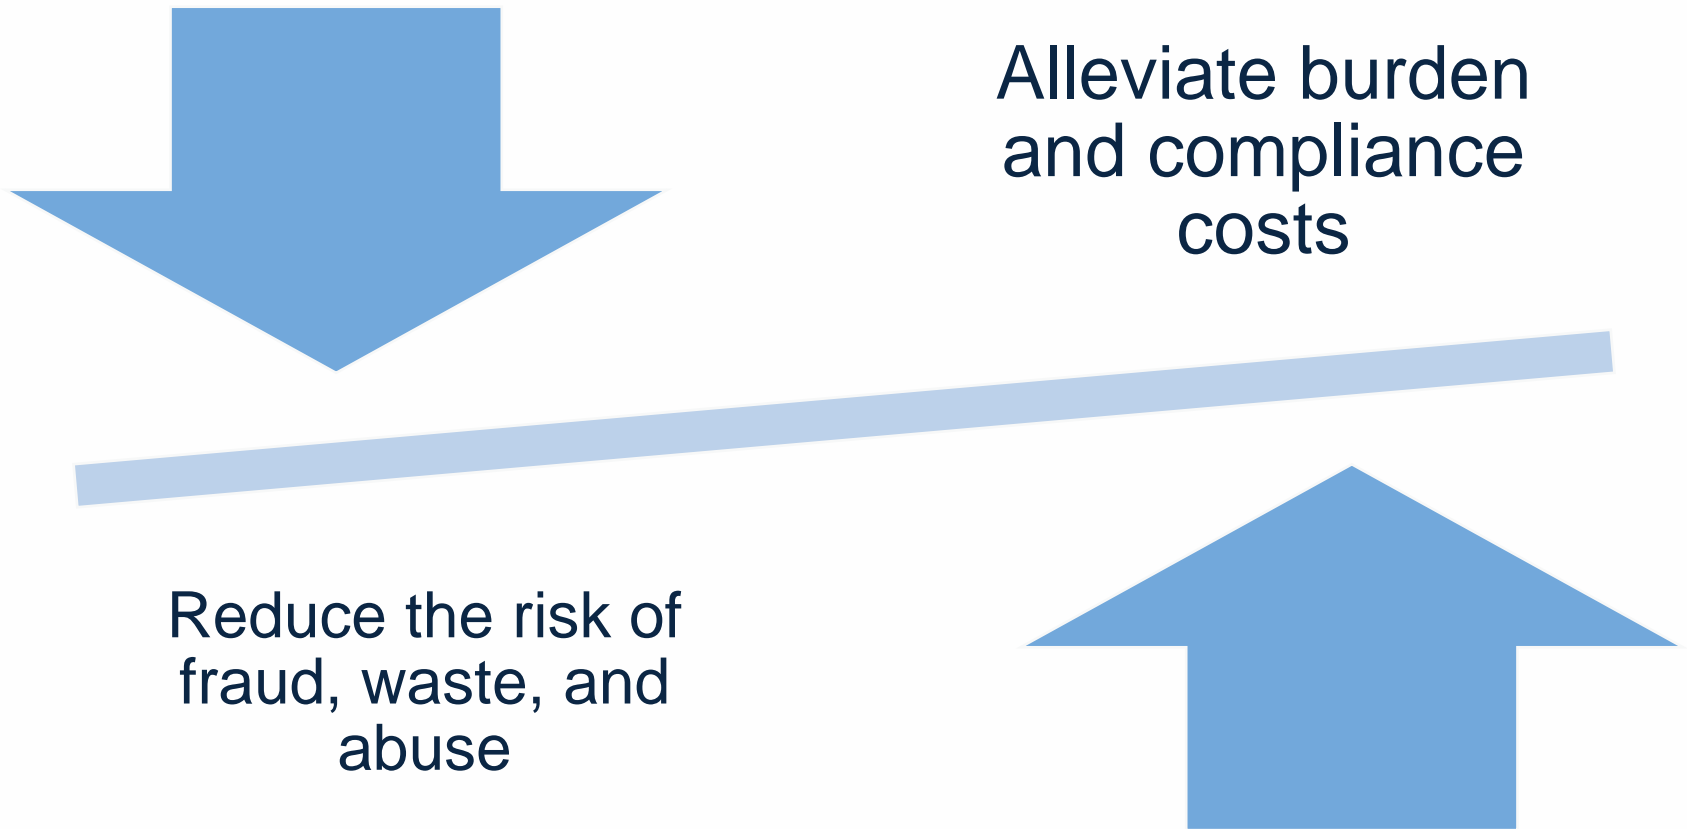

- Burden
- Fragmentation
- Conflicting guidance

Federal Awarding Agencies

- Need for improved coordination across lines of businesses and program
- Opportunities to improve access to and quality of data
- Unstandardized business process

Striking the Right Balance between Historically Competing Goals

Goal Statement

- Maximize the value of grant funding by applying a risk-based, data-driven framework that balances compliance requirements with demonstrating successful results for the American taxpayer.

Challenge

- The Federal government uses grants to invest approximately \$700 billion each year in mission-critical needs for American taxpayers, but managers report spending 40% of their time using antiquated processes to monitor compliance instead of analyzing data to improve results.

Opportunity

- Identify, open, standardize, and link critical data sets to power data analytics to enhance financial stewardship, performance management, and accountability. Use digital tools to modernize antiquated compliance processes. Leverage available data such as those produced by annual audits of recipients to drive a risk-based framework for performance management that drives results.

Goal Structure - Results Oriented Accountability for Grants

Standardize Data

Identify, open, standardize, and link critical data sets to power analytics to enhance financial stewardship, performance management, and accountability.

Digital Tools to Manage Risk

Use digital tools to modernize antiquated form-based compliance processes to assess and manage risk.

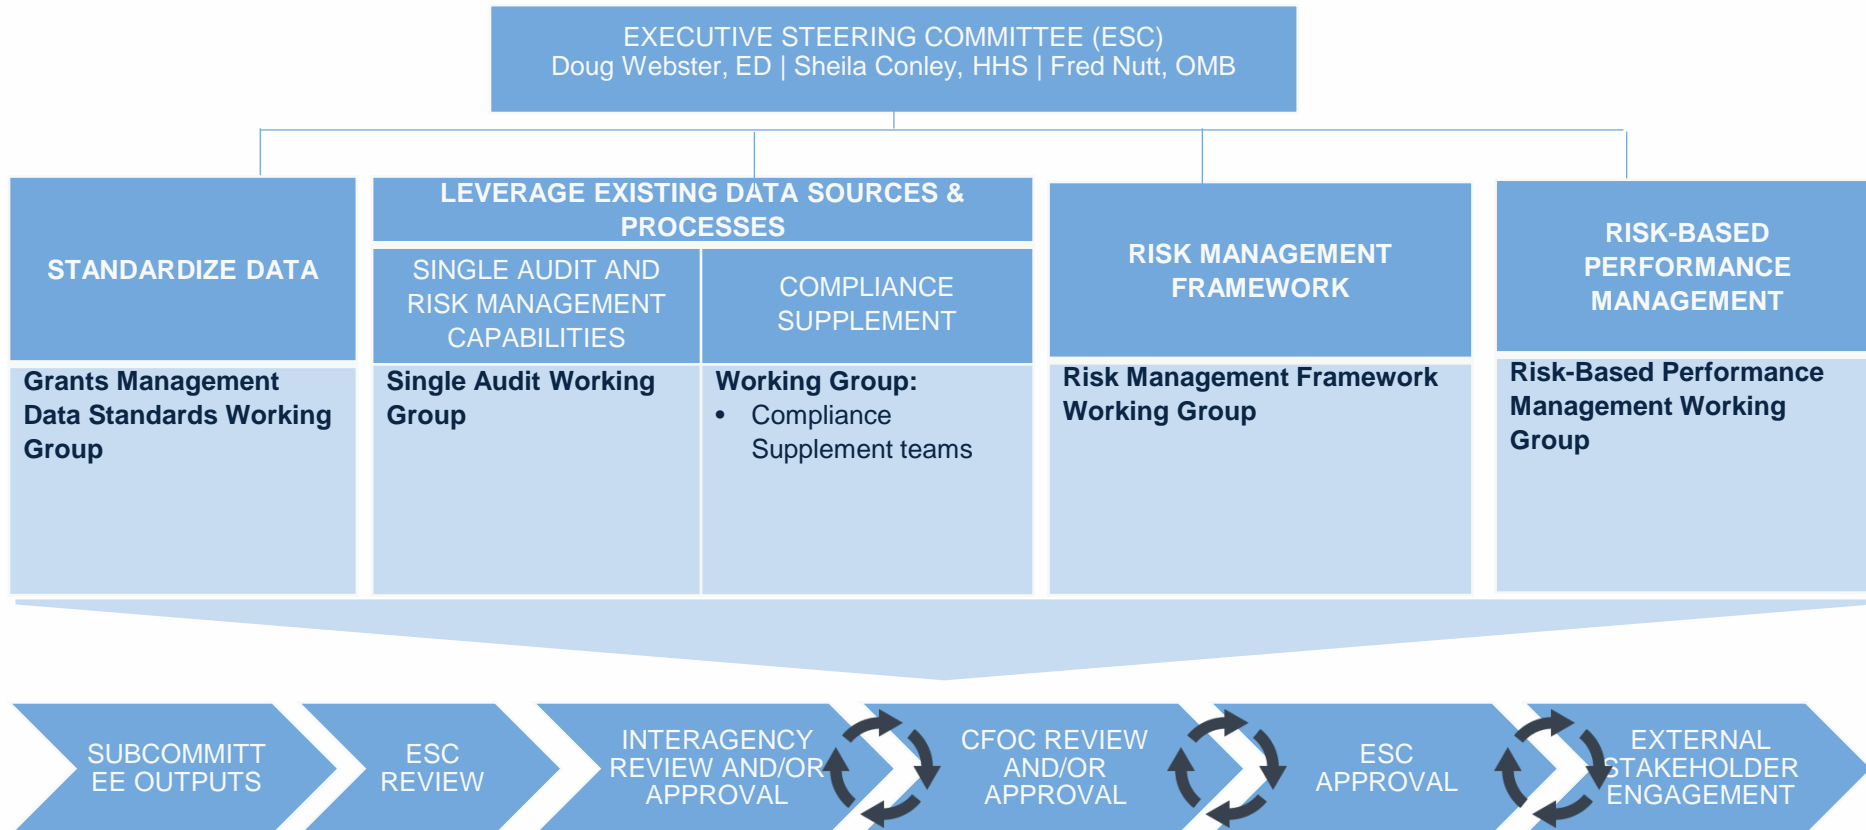

Risk-Based Performance Management

Leverage existing data such as those produced by annual audits of recipients to drive a risk-based framework for performance management that drives results.

**Better
Results**

CAP Goal #8 Governance

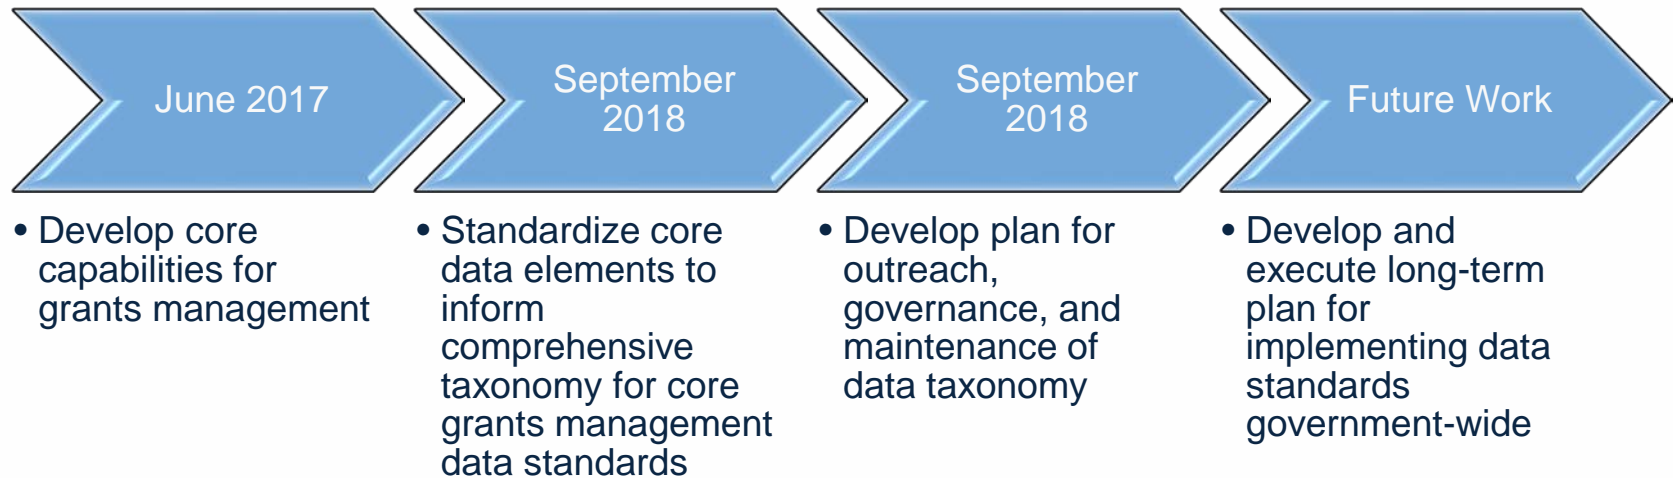

Strategy 1: Standardize Data

Data standardization reduces recipient burden, supports faster and more transparent decision making. Initial work will focus on the establishment of a comprehensive taxonomy for core grants management data standards.

This strategy supports the Improving the Efficiency and Effectiveness of Administrative Services Across Government and Leveraging Data as a Strategic Asset CAP Goals.

Strategy 2: Digital Tools to Manage Risk

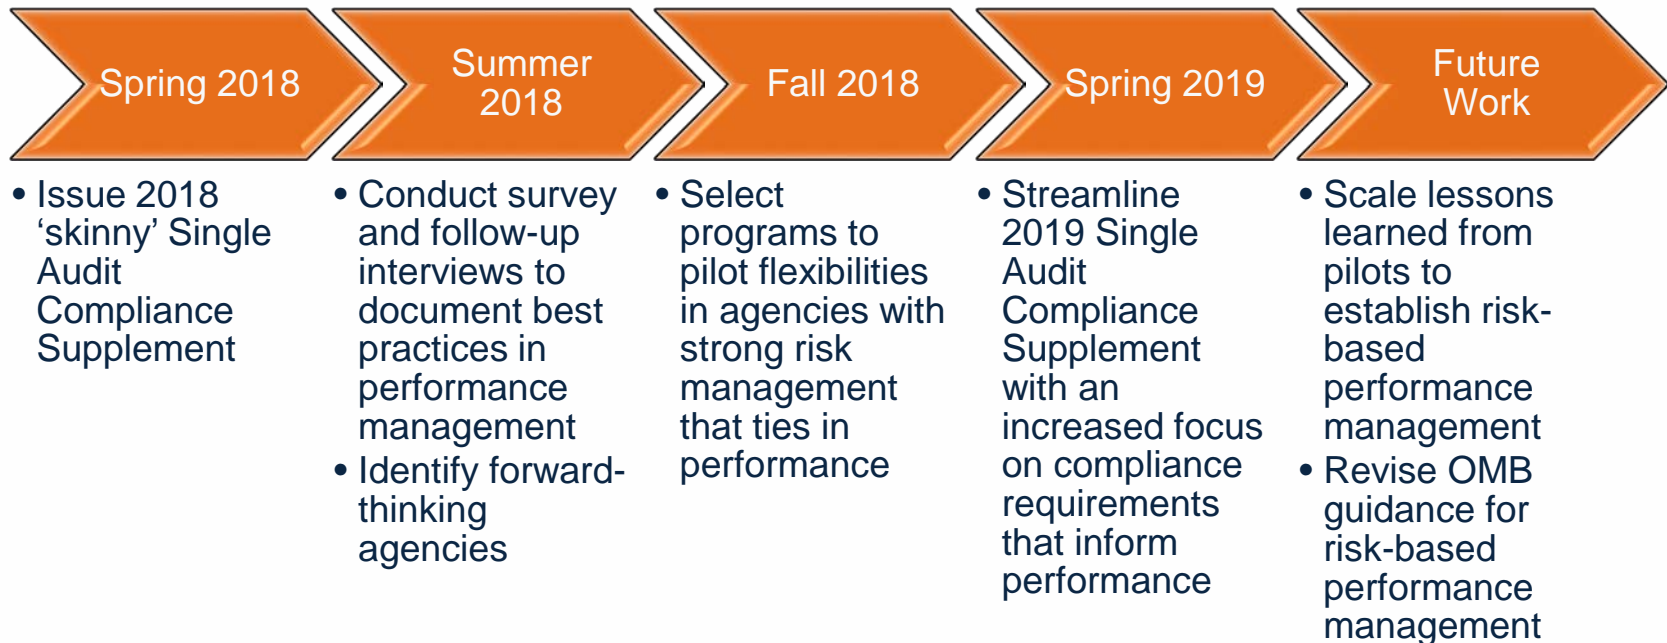

The Federal government has a tremendous amount of data that may be leveraged to identify opportunities and better manage risk, but that data is currently locked in an antiquated process, and driving burdensome compliance exercises. Powerful data and analytics based on risk could set the stage for a risk-based performance management framework in Strategy 3.

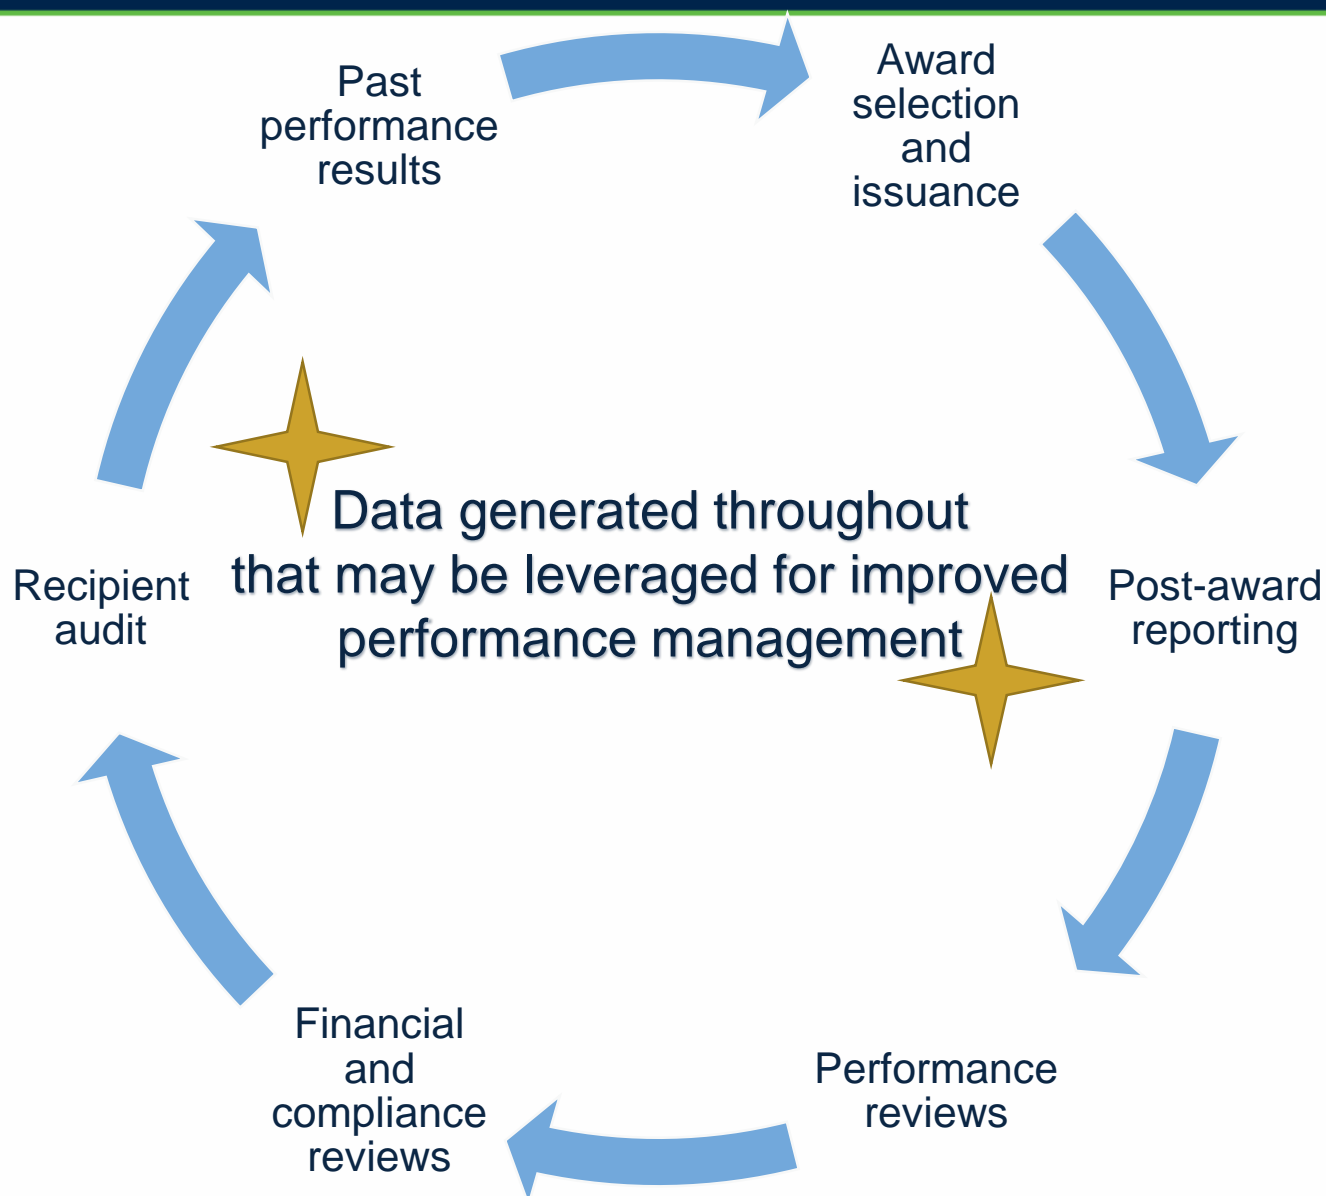

Strategy 3: Risk-Based Performance Management

A comprehensive risk-management tool for determining Federal funding awards that are low-risk and high value must include consideration of past performance results, financial risk, and an applicant's capabilities to deliver the proposed results. In order to do this, agencies need to have ready access to performance data and have the data infrastructure to include performance in risk modeling.

A New Risk-Based, Data-Driven Framework
