OG:RAD: LOC Workload Survey

– *Background and introduction*

- Origin of survey
 - Community interest
 - Attempt to quantify the workload of using multiple systems for letter of credit drawdowns through the five primary Federal payment request systems
 - Discrete process that can lend itself to quantification
 - Starting point for electronic streamlining for post-award activities
- Survey working group included feedback from Federal and Institutional partners
 - Thanks for the hard work!

OG:RAD: LOC Workload Survey

– *Update and prelim findings*

- Survey open late August through December 2019
- ~~59~~ responses - now 61!
 - Even distribution of public & private
 - Representing small (>\$50M portfolio) to large (>\$1B)
- Today's focus is an initial review of the quantitative data from the responses
- Qualitative analysis and recommendations will need more time - and volunteers!

– *What's next?*

Next Steps

- Data collection is officially closed
- Moving into full analysis mode (incorporating institutional demographics; commonalities/ outliers identified from qualitative data; etc.)

Seeking volunteers!

- Questions? Discussion?

Generally:

- Partnering with the government (in the FDP tradition)
- Advocate for the use of administrative data between collaborators and funders
- Viewing data as a strategic asset and cornerstone for reducing workload
