# SciENCv = Science Experts Network Curriculum Vitae

*Use your data from multiple systems to support funding applications, reporting, and collaboration with less burden and complexity*

## Goals

- **Reduce burden** of applying for federal funds and maintaining federal profiles
- **Leverage and extend data** to/from external systems
- **Track impact** of federal investments in science and scientist careers through scientist-curated data

## Current Features

- NIH biosketches, NSF biosketch, Dept. of Ed. IES biosketch
- Integration with ORCID, Fastlane, PubMed/PMC and eRA Commons
- Bulk upload of citations from reference manager software

### G.100 - How to Use the Application Instructions

Use these application instructions to fill out the forms that are posted in your funding opportunity announcement.

**Tour the [application guide](#)**

**Quick Links**

- [Step 1. Become familiar with the application process](#)
- [Step 2. Select the correct application instructions](#)
- [Step 3. Choose an Application Guide format](#)
- [Step 4. Complete the appropriate forms](#)
- [Step 5. Stay informed of policy changes and updates](#)

**Step 1. Become familiar with the application submission process.**

Understanding the application process is critical to successfully submitting your application. Use the [Application Process](#) section of these instructions to learn the importance of completing required registrations before submission, how to submit and track your application, where to find page limits and formatting requirements, and more.

**Step 2. Use these instructions together with the forms and information found in the funding opportunity announcement.**

The funding opportunity announcement will include the forms needed for your application submission.

**!** Remember that the funding opportunity announcement instructions always supersede these application instructions.

**Step 3. Choose which application instruction format you prefer to use.**
