Released July 2017

O F F I C E O F N A V A L R E S E A R C H

A Few Reminders...

- Full proposals for FY2018 Young Investigator Program (YIP) announcement due September 15, 2017. FOA # N00014-17-S-F014
- Full proposals for FY2018 Multidisciplinary Research Program of the University Research Initiative (MURI) announcement due November 1, 2017. Announcement # N00014-17-S-F006
- White papers for FY2018 Vannevar Bush Faculty Fellowship and ONR's Basic Research Challenge (BRC) announcements were due last month.
- Full proposals for topics 1 and 2 under the FY2018 National Oceanographic Partnership Program (NOPP) announcement due October 16, 2017. Announcement # N00014-17-S-B016

Updates in DoD Grants Policy and Terms and Conditions

- DoD has a new Grants Policy Manager – Barbara Orlando (previously from NASA)
- Proposed Rules to update the DoD Grant and Agreement Regulations (DoDGARs)
- ONR posted revised DoD R&D General T&Cs (dated September 2017) at its website as well as ONR's Addendum to these T&Cs with Programmatic Requirements (replaces prior Agency Specific T&Cs).

For more information, go to <https://www.onr.navy.mil/Contracts-Grants/submit-proposal/grants-proposal/grants-terms-conditions>.

Updates in DoD Grants Policy and Terms and Conditions

- **Some notable changes in the preamble of the DoD R&D General T&Cs include:**
 - Language on additional grace year for using pre-UG procurement standards (provided by OMB through Federal Register notice at 82 FR 22609, 17 May 2017).
 - New paragraph on Award Acceptance.
 - Added context to “Reserved” sections/paragraphs so that recipients and DoD Components know what is expected (e.g. reserved paragraph/section doesn’t apply to awards using these general T&Cs, applies but will be in DoD Component addendum, or is an optional paragraph/provision that applies only if included in DoD Component addendum or award-specific T&Cs).

Updates in DoD Grants Policy and Terms and Conditions

- **New document entitled “ONR Addendum to the DoD R&D General Term and Conditions and ONR Programmatic Requirements” replaces what used to be called Agency Specific T&Cs.**
 - Includes updated payment provision to remove ONR Payweb language and to include other updates.
 - New RPPR language for interim performance reports; using Army Research Office system.
 - Many things removed from the former Agency Specific Requirements that are now handled in DoD R&D General T&Cs.
 - Requires flow-down of exempt property language to applicable subawards.

Updates in DoD Grants Policy and Terms and Conditions

- **New document entitled “ONR Addendum to the DoD R&D General Term and Conditions and ONR Programmatic Requirements” (CONTINUED)**
 - Includes new provision for Research Involving Recombinant or Synthetic Nucleic Acid Molecules.
 - Includes language on correcting notifications to retrieve copies of awards/mods through DoD’s Electronic Document Access (EDA) system.
 - More clear on which ONR programmatic provisions require flow-down.

Updates in DoD Grants Policy and Terms and Conditions

- May include links on ONR's website to other DoD Components' addendums to the DoD R&D General T&Cs.
- ONR anticipates updates to its T&Cs in FY18 for other types of awards (e.g. foreign research grants, symposium and domestic education).
